

Key features and benefits...

British designed and manufactured...

All Origin products are manufactured in the UK, by Origin, which means there is central control over every product. Offering 2 sightline options - either 49mm or 72mm - the collection of Origin Doors (bi-folds, corner, French and single doors) have been specifically designed to meet the demands of the UK market, which has resulted in superior weather rating, security and aesthetic appeal.

Up to a 20-year guarantee...

Origin Doors come with an industry-leading guarantee of up to 20-years.* This guarantee covers every part that leaves the factory, even the profile, powder coated finish and hardware.

*Guarantee based on location of where the doors will be installed.

Available on a 24-hour lead time...

We can supply fully bespoke doors in as little as 24-hours when ordering from our popular colour range, beating the industry standard by 4-6 weeks. For non-popular colours, the lead time is 3-weeks.

OB-49 OB-72

Slim sightlines...

The OB-49 maximises the panoramic view of surroundings by offering ultra-slim sightlines of just 49mm. Completely tailored to your requirements, the Origin Door range is guaranteed to transform a home and is one of the most sought-after renovation solutions. The OB-72 offers a more traditional style with 72mm sightlines and chamfered beading.

OB-49 OB-72

Finger safe gaskets...

The Origin Door features a special safety system to keep the whole family safe. The unique q-lon seals are finger safe, meaning they prevent fingers being trapped between doors, which is ideal for customers with children.

OB-49 OB-72

150+ RAL colours and dual colour options...

The Origin Door is available in over 150 different RAL shades, as well as dual colour options. Also on offer for the OB-72 are 2 authentic woodgrain effects - Natural Oak and Golden Oak. These offer all of the aesthetic benefits of wood with none of the maintenance requirements. Additionally, certain handles and all hinges can be colour coded.

OB-49 OB-72

Security is key...

Security is essential and Origin have developed a completely secure and unique 8-point locking system which can be used for both systems (OB-49 and OB-72). Proven to protect against bumping, drilling and snapping, not only can both systems conform to industry standards including PAS 24:2016, but they can also achieve the prestigious Secured by Design status.

OB-49 OB-72

Each sash can be up to 1.2m wide...

This means that the aperture can be filled with fewer sashes, meaning less profile and more glass can be achieved, helping make the most of the surrounding views.

OB-49 OB-72

Two threshold options...

Weathered and non-weathered threshold options are available. The weathered threshold for external installations has a lip of just 18mm, and is sure to keep the doors weathertight. The non-weathered threshold offers a minimal transition, but is more suited for internal use.

OB-49 OB-72

Unrivalled quality...

We use only prime billets, meaning we never use billets that have been produced through the re-melting of scrap aluminium. This results in a higher control of the chemical properties in the billet, thus achieving a higher quality finish.
