

# origin Windows

DOORS AND WINDOWS

## Key features and benefits...

### Refocusing our well-being with space and light...

All Origin products are manufactured in the UK, by Origin, giving us central control of the overall finish. Both the OW-70 and OW-80 have been designed specifically to meet the demands of the UK market, which has resulted in superior weather rating, security and aesthetic appeal.

OW-70  OW-80

### Up to a 20-year guarantee...

Origin's industry-leading guarantee of up to 20-years covers both the OW-70 and OW-80.\* This guarantee covers every part that leaves the factory, even the aluminium profile, powder coated finish and hardware.

\*Guarantee based on location of where the windows will be installed.

OW-70  OW-80

### Available on a 24-hour lead time...

Both the OW-70 and OW-80 can be supplied fully bespoke in as little as 24-hours when ordering from our popular colour range. Colours span from Hipca White to Jet Black and cover all the popular metallic shades in between. The OW-80 is also available to be specified in 2 authentic woodgrain effects.

OW-70  OW-80

### Available in all configurations...

The OW-80 is available in all configurations whether it be gable, bay, casement, fixed or French. The OW-70, however, comes only as a casement, fixed or bay. Georgian bar style trim is also available for that extra level of customisation.

OW-70  OW-80

## 150+ RAL colours and dual colour options...

Both our window systems are available to specify in over 150 different RAL shades as well as in a dual colour option. This allows you to match or contrast the interior and exterior of your windows.

OW-70  OW-80

## Security is key...

Security is essential and both Origin Windows can conform to PAS 24:2016 and Secured by Design accreditations. Our windows have also been extensively cycle-tested, ensuring they are durable and perform to the highest standards.

OW-70  OW-80

## Aerogel...

The world's best insulator, Aerogel is used to insulate space shuttles, and has been adopted by Origin for use in the OW-80 to help boost the windows thermal efficiency, allowing it to achieve an Energy Rating of A++.

OW-70  OW-80

## Thermally efficient...

With advanced triple weather seals and glazing, both the OW-70 and OW-80 can achieve low U-Value ratings of 1.2 and 0.9 respectively.
